Experts Recommend to Prepare for Safety

Many experts are saying the 5.4 magnitude earthquake we felt on Tuesday was a wake-up call, reminding us that we do have to prepare for earthquakes.

The US Geological Survey said:

“With large earthquakes an inevitable part of their future, Southern Californians must act quickly to ensure that disasters do not become catastrophes.” (Read more here: <http://www.usgs.gov/newsroom/article.asp?ID=1983>)

The Good News: Seismically Retrofitted Buildings Will Have Fewer Damages

CNN said:

One reason the California earthquake caused only minor damage was new, tough building codes enacted since the deadly Northridge quake in 1994, according to an expert with the U.S. Geological Survey. (Read more here:

Next Step: Gain Safety and Save Money

So if you're building was built prior to 1998 and it has not yet received a seismic retrofit, don't delay, call Amber Zamora at (949) 646-0034 to:

- **Gain Safety:** Receive piece-of-mind from potential total loss and injury during the next earthquake. Find out more here: http://www.saundersseismic.com/articles/Seismic_Retrofit_1_%203-19-08.pdf
- **Save Money:** Pay less on your earthquake insurance premiums. Most of our clients receive a 100% ROI in 2-6 years. Find out more here: <http://www.saundersseismic.com/insurance.htm>
